Notice of Hearing

A public hearing on whether to amend the Neosho River Basin Section of the Kansas Water Plan to include additional high priority total maximum daily loads (TMDLs) will be held at 1 p.m. Thursday, September 30, at the Coffey County Courthouse, 110 S. Sixth St., Burlington. The Kansas Water Office will conduct the hearing.

The watersheds of Marion Reservoir and Olpe City Lake are being proposed as high priority TMDLs. A TMDL is part of a process that involves identifying pollutants for impaired water bodies, establishing the maximum level that can be present without violating water quality standards, and determining and implementing effective control measures.

Details of the TMDLs are on the Kansas Department of Health and Environment's Web site at http://www.kdhe.state.ks.us/tmdl/NE2004.html.

Please provide two copies of any written testimony at the hearing. An oral summation of written testimony also may be given. Persons unable to testify at the hearing may submit written comments to the Kansas Water Office through October 8.

Notice of Hearings

Public hearings will be conducted Tuesday, October 5, in Hutchinson and Wednesday, October 6, in Lawrence on proposed changes to the Kansas Water Marketing Program, use of alternative dispute resolution techniques to resolve water resource conflicts, and reservoir demonstration projects and research. The Kansas Water Authority will consider testimony received at the hearings when it meets in November in El Dorado. The Authority will decide whether to include the proposed changes in the State Water Plan and advise the Governor and Kansas Legislature on any requested statutory changes and budgetary needs to put plans into action.

The Hutchinson hearing will be at the Reno County Museum, 100 S. Walnut, and the Lawrence hearing will be at Building No. 21 at the Douglas County Fairgrounds, 2110 Harper. Both hearings begin at 1:30 p.m.

Please provide two copies of any written testimony at the hearing. An oral summation of written testimony also may be given. Persons unable to testify at the hearing may submit written comments through October 15 to the Kansas Water Office, 901 S. Kansas Ave., Topeka, 66612-1249.

Kansas Water Marketing Program

Three recommendations are being considered:

- Put in place a long-term financial strategy to avoid having an unfunded debt to pay at the end of the contract term for purchase of water storage in federal reservoirs from the U.S. Army Corps of Engineers.
- Increase the cost component of the Water Marketing Rate deposited in the Conservation Storage Water Supply Fund from 2.5 cents to 4.1 cents per 1,000 gallons of raw water purchased. The fund serves as a depreciation reserve. The increase reflects an inflation adjustment since the program began in 1983 based on the Consumer Price Index (CPI). Future increases, if necessary, will be based on the Water Marketing Program customer base and tied to the CPI. A

- second component is to switch from an adjustable rate based on prior year costs to the coming year's projected costs.
- Modify the Water Marketing Act to streamline payment of administration and enforcement costs directly from the Water Marketing Fund. Currently, funds are deposited in the state general fund and then transferred to the Water Marketing Fund. Under the proposed plan, the Kansas Water Office would pay administrative and enforcement costs directly from the Water Marketing Fund. In addition, three representatives of Water Marketing Program customers (industrial and small and large municipalities) would be selected to serve as ex-officio members of the Kansas Water Authority's Public Water Supply Operations Committee.

Reservoir Restoration Demonstration Projects and Research

Four recommendations are being considered:

- Conduct a demonstration project on the restoration of a small, public water supply lake. Older public water supply lakes will be identified and local officials will be queried on their interest in participating in a demonstration project. One or more demonstration projects will be selected.
- Review the results of studies at Oologah Lake and El Dorado Lake to assist in developing a reservoir restoration plan at a federal reservoir in Kansas that provides water through the Kansas Water Marketing Program.
- Develop a predictive model for taste and odor problems.
- Redirect Clean Drinking Water Fee revenues to the State Water Plan Fund.

Alternative Dispute Resolution

To resolve water resource conflicts in their early stages, it is proposed that appropriate agencies could use their own trained mediators. The costs would be absorbed by existing agency budgets. For multi-party, multi-county or multi-level conflicts, the Kansas Legislature will be asked to add a line item to the Kansas Water Office's budget to pay for the expenses of contracting with private dispute resolution professionals.

For detailed information on the Kansas Water Plan policy proposals, see the Kansas Water Office's Web site, kwo.org. A button on the home page, "Water Policy Issues Being Considered," will link you to the policy information.

Governmental Ethics Commission

Opinion No. 2004-20

Written September 16, 2004, to Thomas A. Conley, Kansas Department of Health and Environment, Topeka.

This opinion is in response to your email letter of September 8, 2004, in which you request an opinion from the Kansas Governmental Ethics Commission concerning the state level conflict of interest laws (K.S.A. 46-215 *et seq.*). We note at the outset that the commission's jurisdiction is limited to the application of K.S.A. 46-215 *et seq.*, and whether some other statutory system, common law theory or agency rule or regulation applies to your inquiry is not covered by this opinion.

Factual Statement

We understand that you are requesting this opinion in your capacity as chief of the Radiation and Asbestos Control Section for the Bureau of Air and Radiation within the Kansas Department of Health and Environment (KDHE). You have explained that you have been contacted by Prudent Technologies to provide consulting services to them on radioactive decontamination and radioactive waste disposal contracts with the federal government and other entities outside the State of Kansas.

Your office recently issued Prudent Technologies a Kansas Asbestos Abatement license, although Prudent Technologies is in the process of terminating that license.

Question

Is it a violation of the state level conflict of interest laws for the chief of the Radiation and Asbestos Control Section for the Kansas Department of Health and Environment to become a consultant to a company working outside the State of Kansas?

Opinion

K.S.A. 46-233(a) applies to your question. It states in pertinent part:

(a)(1) No state officer or employee shall in the capacity as such officer or employee be substantially involved in the preparation of or participate in the making of a contract with any person or business by which such officer or employee is employed....

Under this provision, you are prohibited, as a state employee, from being substantially involved in the preparation of, or from participating in, the making of a contract with the business for which you will be a consultant. So long as you, as a state employee, do not contract with Prudent Technologies, you may provide consulting services to this business without violating K.S.A. 46-233(a).

Two other statutes must also be considered. K.S.A. 46-235 states in pertinent part:

No state officer or employee shall accept compensation for performance of official duties, other than that to which such person is entitled for such performance. . . . The receipt of wages or salary from an individual's non-state employer during a period of service as a state officer or employee shall not be construed as compensation for performance of official duties.

Pursuant to this statute, so long as it is not part of your current State duties to provide to Prudent Technologies

this type of consulting service, K.S.A. 46-235 would not prohibit you from accepting compensation as a consultant for this company.

Finally, K.S.A. 46-241 states:

No state officer or employee shall disclose or use confidential information acquired in the course of his or her official duties in order to further his or her own economic interest or those of any other person.

This section is self-explanatory. Confidential information obtained during your official duties with the State may not be used for your financial gain or the financial gain of another.

In conclusion, K.S.A. 46-233(a)(1) does not prohibit you from becoming a consultant, so long as you do not, in your capacity as a state employee, participate in the making of any contracts between the State and Prudent Technologies. Pursuant to K.S.A. 46-235, as long as it is not part of your current State duties to provide consulting services to Prudent Technologies, you would not be prohibited from accepting compensation for providing these services. Finally, confidential information obtained during your official duties with the State may not be used for your financial gain or the financial gain of another.

Opinion No. 2004-21

Written September 16, 2004, to all interested persons:

Pursuant to K.S.A. 25-4159 and K.S.A. 46-254, the Kansas Governmental Ethics Commission takes this opportunity to issue its opinion on the interpretation of K.S.A. 25-4147 and K.S.A. 46-269, when the records required to be retained by candidates, political and party committees, and lobbyists may be inspected by the Commission.

Opinion

K.S.A. 25-4147 states in pertinent part:

(b) accounts of any treasurer may be inspected under conditions determined by the commission, and shall be preserved for a period to be designated by the commission.

K.S.A. 46-269 states in pertinent part:

(f) All accounts, records and documents of the lobbyist which relate to every expenditure reported or which should have been reported shall be maintained and preserved by the lobbyist for a period of five years from the date of the filing of such report or statement and may be inspected under conditions determined by the commission.

The Commission now states the following policies concerning inspection of records that candidates, political and party committees, and lobbyists are obligated to maintain:

Audits and inspection of the records will be conducted on a priority basis including, but not limited to, the following:

I. Accorded first priority are situations involving formal complaints or investigations.

II. The next priority shall be assigned to situations in which it is necessary to clarify problems identified during desk reviews or otherwise brought to the Commission's attention.

III. Finally, a random sample of reports may be reviewed for compliance at any time.

The bond will be issued to assist the respective borrower named below (who will be the owner and operator of the project) to finance the cost in the amount of the bond of acquiring the project or for the purpose of refunding a bond previously issued to finance the project. The project shall be located as shown:

Project No. 000612—Maximum Principal Amount: \$150,000. Owner/Operator: David P. and Stacey N. Forshee.
